Promulgation of Regulations

An agency wishing to adopt, amend, or repeal regulations must first publish in the Maryland Register a notice of proposed action, a statement of purpose, a comparison to federal standards, an estimate of economic impact, an economic impact on small businesses, a notice giving the public an opportunity to comment on the proposal, and the text of the proposed regulations. The opportunity for public comment must be held open for at least 30 days after the proposal is published in the Maryland Register.

Following publication of the proposal in the Maryland Register, 45 days must pass before the agency may take final action on the proposal. When final action is taken, the agency must publish a notice in the Maryland Register. Final action takes effect 10 days after the notice is published, unless the agency specifies a later date. An agency may make changes in the text of a proposal. If the changes are not substantive, these changes are included in the notice of final action and published in the Maryland Register. If the changes are substantive, the agency must repropose the regulations, showing the changes that were made to the originally proposed text.

Proposed action on regulations may be withdrawn by the proposing agency any time before final action is taken. Title 05

DEPARTMENT OF HOUSING AND COMMUNITY DEVELOPMENT

Subtitle 13 NEIGHBORHOOD BUSINESS DEVELOPMENT

05.13.07 Business Lending Program

Authority: *Housing and Community Development Article, §§2-111 and 3-206 and Title 4, Subtitle 2, Annotated Code of Maryland*

Notice of Proposed Action

[20-087-P]

The Secretary of Housing and Community Development proposes to adopt new Regulations .01—.13 under COMAR 05.13.07 Business Lending Program.

Statement of Purpose

The purpose of this action is to implement statutory changes adopted by the General Assembly during the 2016 session to enhance the State's financing programs to support small businesses.

Comparison to Federal Standards

There is no corresponding federal standard to this proposed action.

Estimate of Economic Impact

I. Summary of Economic Impact. The proposed regulations will make it possible for the Maryland Department of Housing and Community Development (DHCD) to offer more types of loans and financial assistance than are currently permitted under the existing regulations. Recent statutory changes under Ch. 482, Acts of 2016, and Ch. 211, Acts of 2019, expanded DHCD's ability to provide business project loans in priority funding areas. New products may include loans for business owners who lack resources or are otherwise not able to obtain a competitive interest rate when starting

or expanding a business. These additional products will allow new and existing businesses new opportunities by providing access to competitive loans that they might not be able to obtain from the existing private market or the U.S. Small Business Administration.

II. Types of Economic Impact.

A. On issuing agency:
B. On other State agencies:

C. On local governments:

D. On regulated industries or trade groups:

E. On other industries or trade groups:

F. Direct and indirect effects on public:

III. Assumptions. (Identified by Impact Letter and Number from Section II.)

A. DHCD will receive revenue from the origination fees and loan repayments associated with expanded lending under the program. The number of and amounts of the loans that will be originated are indeterminable. DHCD will incur some minor administrative costs, but these costs will be less than the revenue generated. No additional costs would be incurred administratively because of these regulations.

C. Local governments will benefit through increased property values and more job creation, as businesses seek funding for property renovations and business expansion within their city and county

limits.

D. Private lenders may benefit by the proposed regulations because additional businesses may be eligible for loans originated by DHCD thus creating more partnership opportunities between the public and private financing sector.

E. Other industries such as construction, retailers, manufacturers, etc., may benefit as these industries may expand due to the increased availability of funding.

F. The proposed regulations are expected to result in additional types of loans for business projects that are not currently being served. The proposed regulations allowing for expansion into priority funding areas are expected to result in an increase in business projects and growth by expanding the availability of loans.

Economic Impact on Small Businesses

The proposed action has a meaningful economic impact on small business. An analysis of this economic impact follows.

Small businesses will benefit from the regulatory changes since the underlying program, Neighborhood Business Development Program (NBW), provides flexible financing for small businesses that is not otherwise available from the conventional financing sector. For over 20 years, NBW has provided meaningful and impactful support to small businesses across the State of Maryland. With these regulatory changes, NBW's ability to support small businesses will expand.

Impact on Individuals with Disabilities

The proposed action has no impact on individuals with disabilities.
